- Operational
- Troubleshooting

WORK/SCHOOL EXPERIENCE

Hardware Tech — 2022-2026

JRNE I Manila City

- Diagnosed and repaired hardware issues for laptops, desktops, and printers, including screen replacements, keyboard repairs, hard drive upgrades, and resolving printer jams
- Performed routine hardware maintenance and troubleshooting to improve device performance and extend the lifespan of client equipment
- Assembled custom computer systems tailored to client requirements, aligning component selection with specific needs and budget constraints
- Provided on-site and remote technical support to resolve hardware-related issues and minimize client downtime
- Managed client data backup and recovery during hardware repairs to safeguard information and prevent data loss

Quality Assurance/Tester (Capstone Project) — 2025-2026

STI COLLEGE

- Served as Quality Assurance Tester for a team-developed capstone project, [briefly describe project name/purpose if you want]
- Conducted comprehensive system testing to identify bugs, errors, and inconsistencies in software functionality
- Documented test cases, test results, and defect reports to ensure clear communication with developers
- Performed regression testing to verify that resolved issues remained fixed after updates
- Collaborated with developers to reproduce issues and validate fixes before final deployment
- Ensured the project met quality standards and user requirements through meticulous testing procedures
- Contributed to technical documentation, including user manuals and system guides
